

I am writing to you as a financial supporter of KLOVE. The reason why I am financially supporting KLOVE is because of my desire to keep this type of programming on my local radio station. EVERY DAY my family listens to KLOVE in the car and I always know that the music, conversation, and discussions heard there are safe for our young sons to hear. Not only is it safe for their listening ears but it communicates to our sons the same message that we believe is so important and that we are teaching them at home. I cannot imagine losing KLOVE. We need this station to stay in our local area for families to be encouraged and to have a station that echoes the importance of Christian values. Our boys need to hear that God's message in song can be cool and fun. Many times I will hear them repeating the words of the songs that we hear on KLOVE and I cannot think of a better way for them to be influenced and influence others for the gospel of Christ than this. Please consider the HUGE negative impact on our families if KLOVE were removed. We need this type of programming in our area. I will continue to support it!!!
